

Welcome to Astris PME Hire

We are pleased to showcase this dynamic range of quality specialised products which are available as fast-supply HIRE equipment.

Short Term Hire

The configured equipment in this brochure are available for hire. Minimum hire periods are two months, due to the time and cost involved in set up / configuration, delivery and fitting. Our competitive rates are monthly, with the initial payment covering the first two months, plus the set-up, delivery and fitting fee. It also includes a 'bond' that covers the collection and disinfection of equipment, at the end of the trial. If you end up purchasing the equipment, this bond is refunded.

Hire To Own

We do offer a finance model where we supply the equipment, with monthly repayments to pay off the equipment. At the end of 12 months, you own the equipment. Although the cost to configure, delivery and fit the equipment still applies, there is no bond nor return & disinfection fee.

Product Demonstrations & Trials

Most of the products in this brochure are scripted/prescribed. That means they are customised to suit the specific needs of each individual client.

Equipment Users & their Carers

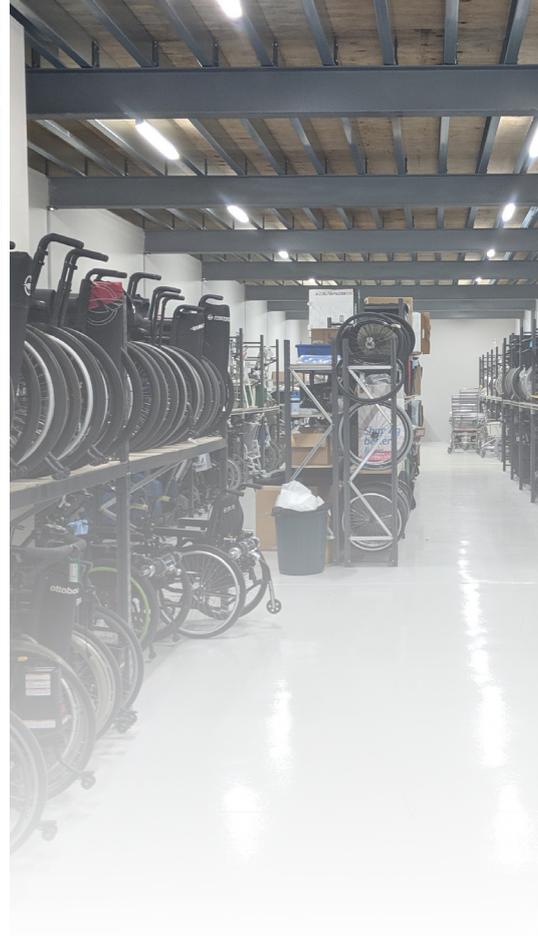

To arrange a trial of any of our range, please contact your preferred therapist, and request a joint consultation with an Astris PME Product Consultant. These can be held at our clinic rooms, at your therapist's clinic, or at another suitable location of your choice.

Therapists

To arrange a trial of any of our range, please contact our offices on the below number.

Lead Times

Because we carry significant inventories here in Australia - supported by workshops where your equipment will be specifically assembled and configured to suit you - we are able to supply a very large range of equipment very quickly.

There will be times where we have had a large demand on particular parts which can add to your lead time, but in many cases equipment can be supplied between 24 hours and 2 weeks from when your funding for hire has been approved.
