

Assistive Technology Equipment for 24-hour positioning care & comfort.

ADULTS

Why Choose Astris PME?

As market leaders in Assistive Technology (AT) equipment in Australia, Astris PME provides high quality products that promote independent, active lifestyles. We have a passion for what we do and pride ourselves on delivering expert knowledge of innovative, specialised AT products.

Since our inception in 1952, we have improved the lives of thousands of people by prescribing and supplying exceptional AT equipment from leading manufacturers around the world. Our personalised, expert advice and products are chosen to meet individual needs of clients and change their lives for the better.

The Astris PME Product Range

The Astris PME team continually research new products and global innovation, which is why we can provide the very best assistive technology equipment available in the Australian market today. Before any products are added to the Astris PME range, they are tested and trialled by our panel of equipment users, therapists and product consultants, to make sure they meet all functional and quality requirements, plus regulatory standards for safety.

We are pleased to showcase this dynamic range of quality specialised assistive technology products with you. This brochure features products that have been chosen to indicate the diverse range of products we have available. Most of these products are scripted/prescribed, which means they are customised to suit the specific needs of individual clients.

Product Information, Demonstrations & Trials

Further details, including photos, videos and specifications, can be found by visiting our website (www.astris-pme.com.au) and entering the product name in the search field.

Clients: To arrange a trial of any of our range, please contact your preferred therapist, and request a joint consultation with an Astris PME Product Consultant. These can be held at our clinic rooms, at your therapist's clinic, or at another suitable location of your choice.

Therapists: To arrange a trial of any of our range, please contact your local branch or our national support hotline: **1300-131-884**.

This brochure provides a broad overview of our Adults range. To view our range of products for children, please refer to our Kids & Teens Brochure.

For our 2025 Adults Brochure, we wanted to celebrate the real faces and stories within our Astris PME community. Many of the photos you'll see throughout these pages feature our actual clients – inspiring individuals whose stories bring warmth and meaning to our work.

In Spring 2024, we had the pleasure of photographing two incredible women, Raja and Bree, as they trialled a variety of our power and manual wheelchairs, as well as power add-ons. Their enthusiasm, laughter, and spirit lit up each shot as they explored their world with joy and confidence. We're immensely grateful to these wonderful ladies for sharing their journey with us, and we hope their stories inspire you as much as they inspire us.

After Sales Care

An important factor when choosing your AT provider is to consider how well they support you with any after sales care you need. Astris PME has you covered. Depending on your situation, location and level of complexity of your equipment we can provide a range of range of after sales care and support.

We also have mobile workshops that can come to your home, school, hospital, or clinic, and provide on-site repairs, maintenance, and adjustments.

For your peace-of-mind we also offer Programmed Maintenance Plans to many locations. This will help safeguard and extend the life of your equipment, so small issues can be resolved before they cause major issues, and in many cases programmed maintenance can avoid these small issues from even arising.

Scan the QR code or contact our Service Department on 02-9135-6440 or service@astris-pme.com.au to learn more about our Programmed Maintenance Plan.

Hire Options

Hire is a great option for short term needs, or where an NDIS Participant is waiting for approved funding. Hire is also beneficial when needs change.

Our Hire service provides you with choice and flexibility when it comes to your care. It can help support you through the times of need as well as let you trial different solutions for your care.

Scan the QR code or call our Hire Department on 02-6380-1001 to learn more about AT Equipment Hire.

What is the Astris PME Difference?

The team at Astris PME have an ongoing commitment to providing the highest level of service to therapists, equipment users and their families.

We do this through our 'Ecosystem'. We have a dynamic and accomplished team of people working across different departments, interacting with each other to create and exchange sustainable value.

This is the Astris PME Ecosystem, and it is our key difference. We work together to ensure that we can provide the very best support for our all our clients - including Equipment Users, Carers and Therapists.
